

STOCKS UP AND DOWN

Wall Street Market Continues to Be Feckish.

ONE UNIMPORT/NT FAILURE

Firm of Consolidated Exchange Brokers Suspends Without Effect on General Situation—Heavy Supporting Orders.

New York, Aug. 7.—Sentiment in Wall street was strong to a high tension, and the opening quotations were awaited with apprehension. They showed that protective measures had been taken to avoid demoralization and many of the prominent leading stocks were lifted a fraction. At other points, however, there were violent breaks, especially in the specialties and some of the market leaders were also under severe pressure. Such stocks as St. Paul, Southern Pacific, New York Central, Pennsylvania, Southern Railway, Erie and Illinois Central showed the effect of supporting orders and rose a fraction. Missouri Pacific and United States Steel opened unchanged, but the former relapsed a point. Chicago Northwestern dropped 4, Wheeling and Lake Erie second preferred 3/4, Continental Tobacco preferred 2, Brooklyn Transit 1/2, Atchafson, Baltimore and Ohio and Metropolitan Street railway over a point and Consolidated Gas, Manhattan, General Electric and Sugar about a point. The dealings in the first few minutes were excited and feverish, but the market showed the good effect of supporting orders.

The failure of Laidlaw & Garrie, which was announced on the Consolidated Exchange, was not important enough to have effect on the Stock Exchange.

The market was nervous throughout the first hour owing to the occasional outpouring of special stocks, which carried their prices through previous low levels for the year. But the supporting tactics were pursued and the market became steadier. Selling was conspicuous in Missouri Pacific and Baltimore and Ohio, carrying them 1/4, under the closing prices. Atchafson lost as much and Union Pacific declined 1/4. Metropolitan Street railway lost 3/4, Continental Tobacco preferred 3/4, Delaware and Hudson, Hooking Valley preferred, Minneapolis, St. Paul and South Ste. Marie, Consolidated Gas, Pullman and Republic Steel preferred 2 to 3 points, and a more extended list a point or over.

All Sheets Pass Clearing House. With the announcement that all sheets had passed the Stock Exchange clearing house the buying became definitely predominant over the selling and the market rose with animation. Only stocks that had been notably weak failed to recover. Such leaders as St. Paul, the trunk lines except Baltimore and Ohio, Southern Pacific, the Wabash and the Southern group of railroads, United States Steel, Amalgamated Sugar, General Electric and a miscellaneous list rose above closing prices. Wabash preferred, St. Louis Southwestern preferred and Kansas and Texas preferred rose a point and Tennessee Coal 1/4. There was a break of 3/4 in St. Louis and San Francisco second preferred and of 2/4 in Minneapolis, St. Paul and South Ste. Marie preferred. On the rally the demand diminished to small proportions. Atchafson then sold off 2/4, Reading 1/4, and the whole list yielded again easily. Bonds were weak.

Persistent rumors of liquidation by a "big house" were circulated during the noon hour and prices dropped once more, some of them to a lower level than before.

Stocks that suffered most in this attack included St. Paul, Reading, Atchafson preferred, Erie, New York Central, Pennsylvania, Union Pacific and United States Steel.

Showed traders on the floor expressed the belief that much of the liquidation was of a new character, the source of which they were unable to trace. It was this fact that excited considerable apprehension.

The market turned very strong in the afternoon and the buying became as animated as the selling had been in the morning. The earlier losses of 1 to 2 points were generally transformed into net gains of 1 to over 2 points. New York Central, St. Paul, Missouri Pacific, Southern Pacific, Wabash preferred and Amalgamated Sugar were conspicuous features of the rally, and these stocks rose from 2 to 2 1/2 over Wednesday night's level. The absence of any failures and the cessation of the selling out of collateral in loans prompted the large short interest to cover. There was occasional selling to realize on the rally, but it was without notable effect on prices.

Love Loses Race With Death. Los Angeles, Cal., Aug. 7.—Mary Love, the fifteen-year-old daughter of Henry Love, the chief engineer of the United States Steel corporation, who is speeding across the continent on a special train, is dead at a hotel here. Mr. Love started from New York Tuesday afternoon and in the hope of reaching Los Angeles while his child was yet alive chartered a special train at an expense of nearly \$4,000. When death came to the child Mr. Love was passing through western Kansas.

ROOT AT OYSTER BAY.

Discusses With the President the Situation in Macedonia.

Oyster Bay, N. Y., Aug. 7.—Secretary of War Root, after a conference with the president which continued far into last night, left for Washington on an early morning train. This probably was the last visit of Secretary Root to President Roosevelt before the secretary leaves for England to attend the session of the joint commission appointed to determine, if possible, the Alaskan boundary dispute.

The president and the secretary of war discussed at length some points which have arisen regarding the operation of the general staff of the army. It is understood to have been decided that Major General Corbin, for a time, at least, will continue to perform the duties of adjutant general of the army in addition to his work as second in command to the chief of staff, Major General Samuel B. M. Young. A few details of the work of the general staff yet remain to be worked out, but Secretary Root hopes to see the new organization running smoothly before he leaves for England.

While Secretary Root discussed with the president very thoroughly the Laidlaw-Lyon glove contract case, no information is obtainable as to the result of the conference. The situation was so delicate that neither the president nor Secretary Root cares at this time to discuss it for publication.

No visitors were received formally by the president at Sagamore Hill. Indeed the president, after dispatching a considerable amount of business with Secretary Barnes, spent most of the day away from the house.

CALEB POWERS' THIRD TRIAL

Defense's Challenge of Jurors Because of Their Politics Overruled.

Georgetown, Ky., Aug. 7.—In the third trial of ex-Secretary of State Caleb Powers for complicity in the Goebel murder Judge Robbins overruled a motion of the defense challenging the jury panel which had been provisionally accepted.

The motion was supported by the affidavit of Thomas C. Whalley, alleging that of the ninety-five jurors only two were Republicans and that Deputies Lushy and Rogers in impeaching the jurors had been accompanied and directed by William Burke and John Williams, both "well known Democratic workers," who assisted them and caused discrimination in the selection of jurors.

The ground for overruling the motion was that "political affiliation is not a disqualification for jury service at law."

CARNEGIE'S GIFT TO BIRTHPLACE

Makes Over Two Million and a Half to Town of Dunfermline.

London, Aug. 7.—In handing over to fifteen representative citizens of his native town, Dunfermline, who were his guests at Skibo castle early this week, a trust deed transferring to them \$2,500,000 in 5 per cent bonds of the United States Steel corporation, and Pilsener park, Andrew Carnegie explained the objects he had in view in these words:

"It is an experiment, the object of which is to attempt to introduce into the monotonous lives of the toiling masses of Dunfermline more of sweetness and light, to give them, especially the young, some charm, some elevating conditions of life which their residence elsewhere would have denied, so that a child in his native town will feel, however far he may have roamed, that simply by virtue of being such his life has been made happier and better."

Mr. Carnegie proceeded to say that he had provided for this experiment in his will more than twenty years ago, but his retirement from business enabled him to put the scheme into operation during his lifetime. The problem set to the trustees was, "What can be done in towns to benefit the masses by money in the hands of the most public spirited citizens?" If it was proved that good could be done the trustees would open new fields to the rich, which, Mr. Carnegie said, he believed they would hereafter be more and more anxious to find for their surplus wealth.

Mr. Carnegie exhorted the trustees not to be afraid of making mistakes, to try many things freely, but to discard just as freely, keeping in touch with the masses and constantly aiming to improve their tastes and give Dunfermline something beyond what was possessed by other cities.

TO CRUSH REVOLUTION

Turkey Will Use Extreme Measures Against Macedonians.

MORE MASSACRES EXPECTED

Albanian Troops Will Be Employed. Kurds in Armenia Assume a Threatening Attitude—Warning to Bulgarians.

Constantinople, Aug. 7.—Consular advices from Monastir indicate that the situation in Macedonia is constantly growing worse.

At a meeting of the ministers it has been decided, therefore, to adopt measures of extreme severity in order to suppress the revolution. It is reported that Albanian troops will be employed, in which event massacres are almost inevitable.

The Bulgarian exarch was summoned to the Yildiz palace and urged to make a final appeal to his flock to deliver up their arms and thereby avoid bloodshed.

The menacing attitude of the Kurds in Armenia is causing increasing alarm at Erzerum, Bitlis and Karpuz. It is asserted in some quarters that the authorities are secretly arming the Kurds while endeavoring to convict the Armenians of revolutionary intentions.

A circular note, it is stated, has been sent out to warn the European powers of the Turkish government's intention to crush the revolt. The note stated that the situation was very serious, and, although it did not mention Bulgaria, the document was regarded as a menace to the Bulgarian government.

The Macedonian committee in Sofia has announced that a revolution was proclaimed on Sunday in the vilayet of Monastir by the central revolutionary committee and that the revolutionary forces in all the districts began hostilities simultaneously. Telegraphic communication with the vilayet has been cut.

THE NAVAL WAR GAME

Rear Admiral Parker's Squadron Reported Off Desert Rock.

Rear Admiral Parker's squadron—four in the war maneuvers now going on in the Maine coast—which put in here for mail, reported Admiral Barker, with the flagship Kearsarge, the battle ships Alabama and Illinois and the tug Pensacola and Nina, off Desert rock, about twenty-seven miles from here.

The old school ship Hartford and the Chesapeake are guarding the mouth of Frenchman's bay near the Egg Rock light-house, though it was not the first intention to have the training ships participate in the maneuvers.

Only the scout boats have done any great distance from this section of the coast, the superior force apparently being held in readiness to repulse any attack. Should the enemy enter an anchorage it would be necessary for this superior force to attack within five hours.

Torpedo Boat Destroyers Sighted.

Rockland, Me., Aug. 7.—Three torpedo boat destroyers, the Decatur, Chamway and Barry, appeared off Vinal Haven. The date also was at Swan's Island and the Bainbridge at Camden. The Bainbridge was reported later at Portland, where she had proceeded from Camden.

Fatal Fight With Tramps.

Jamestown, N. Y., Aug. 7.—A terrific fight occurred between four tramps and the crew of Erie freight train 82, east bound between Falconer and Kennedy, during which Jack Allen, a brakeman of Meadville, Pa., was badly stabbed and one of the tramps fell between the cars of the train and was cut in two. There was nothing on the body of the dead man to indicate who he was except a bunch of keys and a key chain which bore the name of Samuel Frey, Excelsior Coal company, Akron, O.

Wealthy Contractor Shoots Himself.

Woman Note Raiser Confesses.

Philadelphia, Aug. 7.—Annie E. Shapley, who was arrested in New York on Tuesday and brought to this city to answer the charge of raising United States postal orders and subsequently held for trial, has made a confession. She said her operations had been carried on since May 25, and that the New York city, Trenton, Newark, Yonkers, Brooklyn, New Rochelle, N. Y., Bound Brook, N. J., and other post offices in New York, New Jersey and Pennsylvania had been victimized by the raising of postal orders.

SAVED FROM SUICIDE

In the case shown by above photographs, the sufferer, Mr. Henry Kensler of Pittsfield, Ill., was in a desperate state from eczema which had continued for over ten years, becoming steadily worse and worse each year in spite of all doctoring possible. Life seemed hopeless and suicide was often thought of.

Seeing an account in a newspaper a short time ago of a remarkable case of eczema cured by D. D. D., Mr. Kensler tried it. He wrote to the D. D. D. Company offering to be photographed and to permit publication of his photo if they would guarantee the remedy to cure him as completely as in the case he had read of. From the first use of it he states that all itching and distress disappeared. And in three weeks the skin healed over in every spot where affected. In a short time (it was a matter of only a very few days) the proper, white, natural, smooth state of skin was restored, and there has never since been any recurring sign of the disease anywhere on his body.

Started In Few Small Spots.

The persistent spreading and tenacity of this disease are seen in this case. First one and then another small spot showed. Nothing could drive them away. Slowly the limbs became covered and the neck and back. He fought hard to save the face, but that next was covered and told the story of his misery to the world. Then the hair became encrusted with it. Small beginnings were showing almost everywhere else on the body, hardly a square inch being free from it. In a few years more the man would undoubtedly be a wretched, writhing scab had D. D. D. not conquered the disease. With his tortures already experienced and with this future staring him in the face, what wonder is it that suicide seemed inviting.

A wonderful particular of this case (as seen in all cases more or less) is that the worst big sores were the first to give way to the treatment, while the disease lurking under the skin held on longest. Twenty-one days, however, cleared out the whole affection—every germ of it.

We Vouch For Above.

The facts in this case of Mr. Henry Kensler of Pittsfield, Ill., have been laid before me in all details with proofs that are unmistakable. Every particular in the history of this remarkable cure more than bears out the above statement of the case. From the proofs submitted, we feel that this announcement comes far from doing full justice to the remarkable merit of a medicine which accomplishes results so important to humanity.

Since we have handled the preparation in this city, a great number of people have used it for various skin affections. Its results have been invariably satisfactory. We are therefore willing to guarantee any purchaser full return of his \$1.00, if satisfactory results are not experienced from a trial of a bottle in any case of skin affection.
